stat fps

stat unit

Logs you in as the administrator

enables/disables the cheat menu

Shows the admin manager of your Atlas server

Bans the user from the server

Unbans the user from the server

Gives you 1000xp, you can change the value and if you change the second 0 to a 1 it will share the xp among your tribe

Whitelists the persons Steam ID

Broadcasts a message to everyone on the server, and forces their chat window to open

Deals damage to the creature you are aiming at *Broken*

destroys all objects/creatures of a classname, refer to the creature or item lists for specific classnames, also works with structures

Destroys all enemies, they respawn eventually

Destroys all animals of the tribe you are looking at.

All the players of the tribe you are looking at are killed.

All structures of the Tribes you are looking at are destroyed.

Removes the persons Whitelist entry

Makes all creatures ignore you even if you attack them

Puts your character to sleep/wakes them up

Allows you to fly

Instantly tames the beast, you can even ride it without a saddle

Tame an animal right away - you can also ride without a saddle.

Structure Cheat Box

Color Cheat Box

Gives grappling hook

Turns on noclip, you are able to walk through walls and objects

Assigns all structures to the targeted structure attached to the executing player.

Gives you all available colors

Gives you an item, example admincheat giveitemnum 1 1 1 false gives you a simple pistol and admincheat giveitemnum 1 1 100 false gives you an ascendant simple pistol

Gives you 50 of all resources

Makes any structure/creature you are currently looking at yours

Enables godmode, you can not die except you can still drown

Deals x amount of damage to yourself

Gives you infinite hunger, stamina and infinite ammo

Kicks the person from the server

Destroy the object or dinosaur you are looking at

Kill the player with the ID, the ID you get if you use the command "showmyadminmanager". 9 digit # is player ID

Shows a list of all players on the server with their SteamID

Make the player the leader of the Tribes where he is.

Make the player the founder of the Tribes where he is.

Freezes absolutely everything except players, this even includes crafting

Exits the current world, use after saving for a safe shutdown

Removes the current leader of the Tribes

Saves the current worldstate

disables wind direction for ship aka any direction the wind is the ship will still go forward

Sets a message of the day that appears when people join the server

Allows you to teleport to coords

Changes the time of day, for example cheat settimeofday 12:00

Changes the speed on the server such as player movement, use slomo 1 to revert to normal speed

creates a brig at your location with 3 large speed sails already constructed

Summons a creature at your location. This command can also be used to summon structures, structures will be rotated depending on the players viewing direction

Teleports you to coords 0 0 0 (X Y Z)

(teleports the player to your location. Buggy. Sometimes has to be repeated.

Teleports to specified player use showmyadminmanager to find players id

Deactivates flying and allows you to walk again

Sets the glare

Sets the fog

Shows your fps and latency, usable by anyone. commands do not need to be enabled for this

Displays information about your CPU and GPU. Can be used by any player.

togglegun

Toggles the visibility of your currently equipped weapon/tool
